# MedTech Workshop: User Experience in Medical Products

Nov 28th 2019, Afternoon, HSR Hochschule für Technik Rapperswil

The workshop focuses on:

- Deepening your knowledge in the methods of User Experience
- Finding a common language for technical and clinical experts
- Learning about successful applications

The MedTech Workshop is dedicated to these topics in order to foster collaboration among industry, academia and clinics. Follow input presentations, discuss current topics with other experts and strengthen your network in the Swiss MedTech industry!

## Programme

13.00-15.00	Introduction on User Experience Workshop „Experience Map“
15.00-15.45	Break & Networking
15.45-17.00	Project Cases Wrap-Up & Next Steps

Participation is free of charge.

Please send your registration to [medtechlab@hsr.ch](mailto:medtechlab@hsr.ch) until November 6th 2019.

## Hosted by MedTech Lab

The MedTech Lab supports partners in finding commercially successful solutions to their clinical challenges. Our methods are based on technically and scientifically approved approaches.
